## Profile

Experienced React.js Developer with 2+ years in frontend development, specializing in building scalable, user-focused web applications. Proficient in JavaScript, TypeScript, Redux, and Next.js. Adept at integrating payment gateways, developing modular components, and ensuring responsive UI/UX design. Passionate about delivering high-quality solutions to enhance user engagement and business outcomes.

## Skills

Frontend: HTML, CSS, Tailwind CSS, JavaScript, TypeScript, React.js, Next.js, Redux, Bootstrap, Ant Design

Tools & Platforms: Git, Postman, VS Code, Webpack

Other: API Integration, Payment Gateways, Responsive Design

## Projects

**Winora**, <https://winora.io/>

**Tech Stack:** React.js, Redux, Tailwind CSS, REST API, WebSocket, ImageKit

- Built responsive and reusable UI components using React and Tailwind CSS.
- Developed a real-time gaming and betting platform with 30s, 1min, and 3min pool games.
- Managed synchronized countdown timers for multiple game pools.
- Integrated ImageKit for optimized image loading and management.
- Implemented auto-closing modals with localStorage-based user preferences.
- Created features for displaying game history and bet history with filtering and pagination.
- Integrated Google authentication for secure login.
- Used Formik and Yup for building validated and secure forms.

**Raj Express**, <https://rajexpress.fluttertop.com/en>

**Tech Stack:** Next.js, Tailwind CSS, REST API, Redux

- Built a responsive and dynamic UI for a news and content platform.
- Developed reusable components for articles, categories, and breaking news.
- Integrated REST APIs to fetch and display real-time news content.
- Ensured mobile-friendly layout and consistent styling using Tailwind CSS.

**Ship2gether**, <https://www.ship2gether.in/web/>

- Built user-friendly interfaces using Next.js for parcel booking and real-time tracking.
- Integrated payment gateways like PhonePe and Razorpay, ensuring secure payments.
- Created an admin dashboard for managing shipments and user accounts.

**Bidgrid**, [apps.growthgrids.com/bidgrid](https://apps.growthgrids.com/bidgrid)

- BidGrid is a comprehensive platform designed to streamline the operations of multi-level companies by facilitating work distribution among team members and providing tools for filtering government tenders.
- The platform also features a customizable calendar functionality to enhance scheduling and planning capabilities.
- User Interface Design: Collaborated with UI/UX designers to create an intuitive and visually appealing user interface, enhancing user experience and usability.

**TenderGrid**, [apps.growthgrids.com/tendergrid](https://apps.growthgrids.com/tendergrid)

- Developed a centralised platform that efficiently scrapes and consolidates both government and private tenders worldwide.
- User-Friendly Interface: Enhance accessibility by providing a seamless and intuitive experience for users navigating government and private tender opportunities.
- Top Authority Comparator: Implement a module enabling users to compare major global tender authorities, such as NHA and CEG, for informed decision-making.
- Organisational Tracking: Empower organisation's to monitor and track relevant tenders, streamlining the bidding process and fostering proactive engagement.

## Education

**MCA**, Vardhman Mahaveer Open University

2023 – 2025

KOTA, Raj

**Master of Commerce(M.com)**, University of Kota

2021 – 2023

Kota, Raj

**Bachelor of Commerce (B.com)**, Govt. Commerce College

2018 – 2021

Kota, Raj

## Work Experience

**Software developer**, Codes for tomorrow

02/2025 – present

Indore, MP

- Developed and maintained scalable React.js applications with clean, modular architecture.
- Integrated **Socket.IO** for real-time features, improving interactivity and live updates.
- Integrated **Firestore Cloud Messaging** for push notifications across devices.
- Utilized **Formik** for robust and user-friendly form validations.

- Managed state effectively using **Redux Toolkit**, streamlining data flow across components.
- Collaborated with the design team to deliver responsive and visually appealing UIs.

**Software Developer, Litpix studio pvt ltd**

05/2024 – 12/2024  
Jaipur, Rajasthan

- Built modular React.js components with reusable code patterns, improving code maintainability.
- Implemented payment gateway integrations, including Razorpay, ensuring secure transactions.
- Spearheaded the deployment of live codebases, reducing errors and increasing efficiency by 20%.

**React JS Developer, Growth Grids**

05/2023 – 05/2024  
Jaipur

- Designed and maintained high-quality UI components using React.js, reducing development time by 15%.
- Integrated APIs for dynamic data fetching and seamless user experiences.
- Collaborated with UI/UX teams to convert wireframes into responsive and pixel-perfect designs.
- Optimized application performance, enhancing page load speeds by 30%.

**Training, Full Stack Learning**

09/2022 – 03/2023  
Jaipur, Rajasthan

- Using HTML, CSS, and JavaScript, work with the development team to design, create, and maintain websites.
- Learned React.js, Node.js, MongoDB, and API integration.
- Created mini projects showcasing Hooks, Redux, and Express.js features.
